### Completed house

- For the family or property buyer that wants a turn-key solution. They are looking for the complete package with the least amount of effort on their part and maximum peace of mind that the end product will be as envisioned and agreed upon.

### Habitable house shell

- A Partially Finished house which has been issued an occupancy certificate from the Local Authority.
- For the property buyer who is confident and comfortable with their ability to add the finishing touches to their house.
- A Partially Finished house which has been issued an occupancy certificate from the Local Authority.
- A Partially Finished house which has a perfect solution for the buyer that wants to be hands-on in the personalisation of the finished product but does not have the appetite or desire for undertaking the construction of the house from the ground up.
- This is also an ideal product for someone who may not have the finance to finish the house at once but will be able to install the remaining finishes over time.
